Assignment 2

Didn't Pass

Status	Check	Condition	More Info
×	Train Test Performance	Train-Test scores relative degradation is less than 0.2	2 scores failed. Found max degradation of 47.8% for metric neg_mean_absolute_error

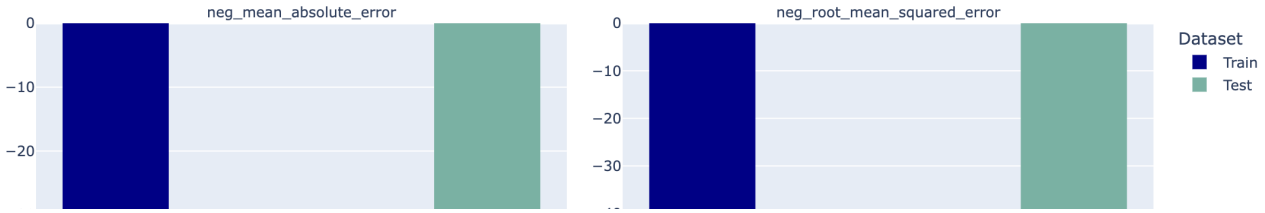

Train Test Performance

Summarize given model performance on the train and test datasets based on selected scorers. Read More...

Conditions Summary

Status	Condition	More Info
×	Train-Test scores relative degradation is less than 0.2	2 scores failed. Found max degradation of 47.8% for metric neg_mean_absolute_error

Additional Outputs

Passed

Status	Check	Condition	More Info
✓	Model Inference Time - Train Dataset	Average model inference time for one sample is less than 0.1	Found average inference time (seconds): 3.56e-06
✓	Model Inference Time - Test Dataset	Average model inference time for one sample is less than 0.1	Found average inference time (seconds): 9.55e-06

Model Inference Time - Train Dataset

Measure model average inference time (in seconds) per sample. Read More...

Conditions Summary

Status	Condition	More Info
✓	Average model inference time for one sample is less than 0.1	Found average inference time (seconds): 3.56e-06

Additional Outputs

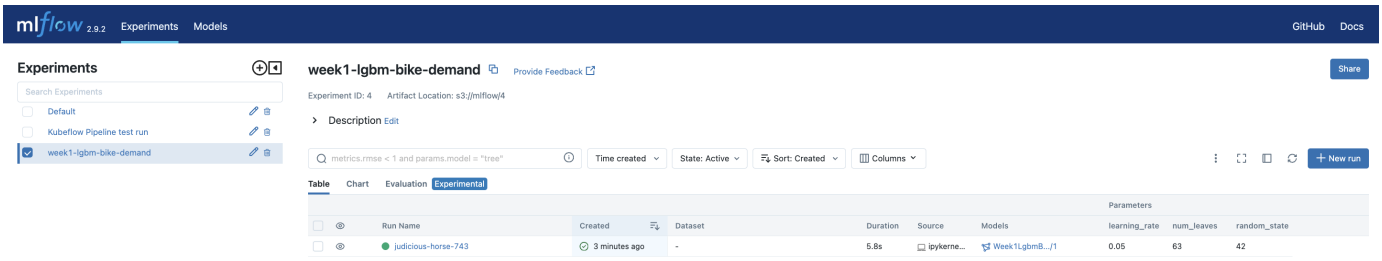

Average model inference time for one sample (in seconds): 3.56e-06

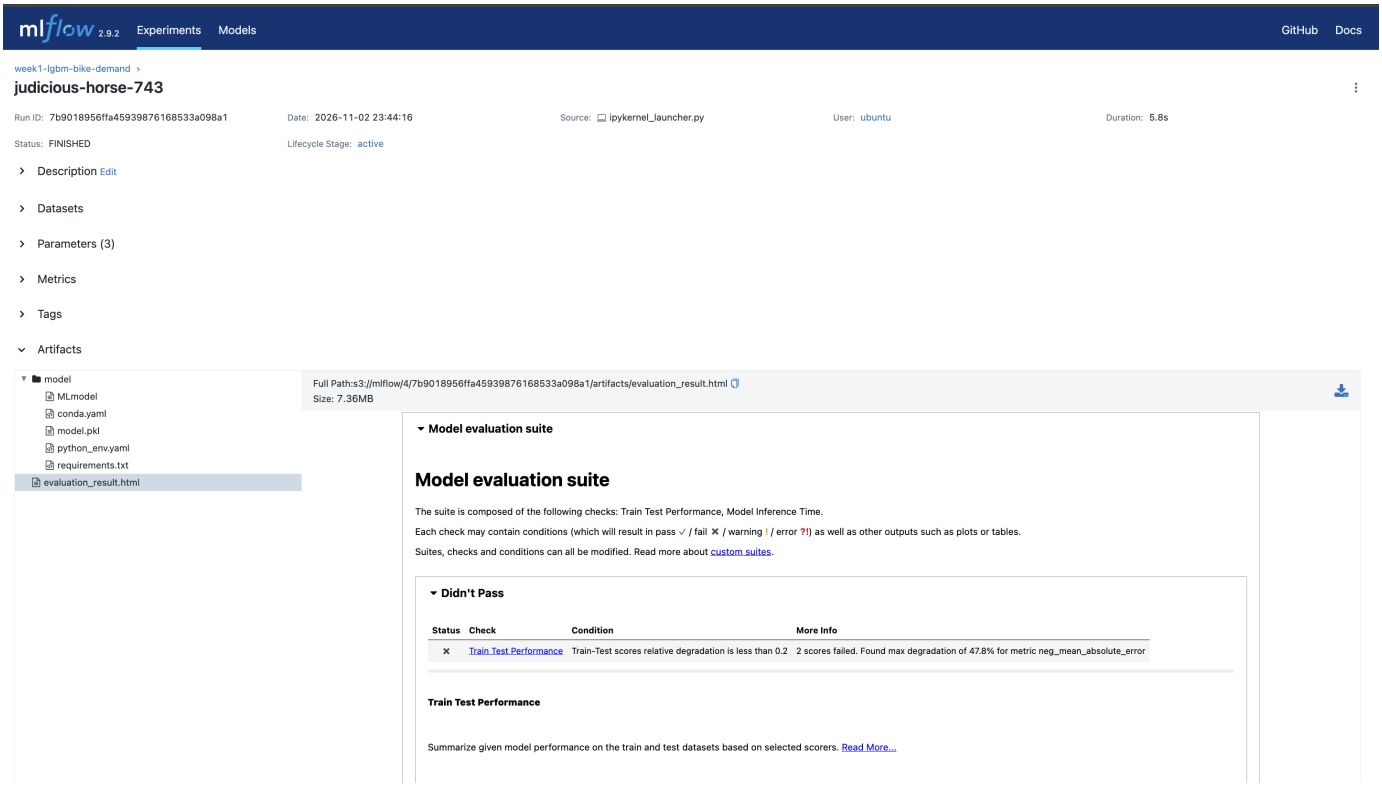

Note - data sampling: Data is sampled from the original dataset, running on 1000 samples out of 10718. Sample size can be controlled with the "n_samples" parameter.
